## DAVEY WANTS MORE SAVINGS

Calls Upon Aids To Determine Which of Sherrill Recommendations Can Be Effected

URGES CAREFUL STUDY

Says Government Must Keep Faith with Men Who Conducted Survey

By The Associated Press

COLUMBUS O Aug 15—Gov Davey told heads of state departments and commissions today that his administration must keep faith with the people by adopting as many of the Sherrill governmental survey committees recommendations as possible

With this aim in view the governor asked governmental heads to determine as promptly as possible the maximum number of recommendations that can be carried into effect in their respective departments without hurting the necessary activities

**Some of the recommendations**

cannot be put into effect hurriedly he said because departments must continue to function while changes are being made

**Wants Positive Attitude**

The governor asked that the problems be approached with a determination to find out the maximum number of recommendations that can actually be carried into effect and not with the thought in mind that these things can not or should not be done

We must keep faith to the largest practical extent with the able business men who contributed their time and talents so generously and the concerns who cooperated with us so freely We must also keep faith with the people of Ohio whom we led to expect beneficial results

I would be unfair to you and to myself if I did not mention the fact that a substantial portion of the benefits to be derived from the Sherrill committee reports have already been achieved by the forced reorganization of your department as a result of the vetoes in the appropriation bill It is my understanding that the combined Sherrill committee reports show a possible annual savings of about $5 000 000

**Based on Original Bill**

This was based upon the original appropriation bill as it passed the legislature and before the veto My exercise of the veto power cut the appropriation bill almost $9 000 000

There are still more savings to be made and this is our objective Your cordial cooperation will be greatly appreciated I will look forward to receiving your report at the earliest possible moment

Ways of effecting more than $4 000 000 in economies already have been outlined to the governor by the committee headed by Col C O Sherrill

### *Sherrill Suggests Retirement at 70*

By The Associated Press

COLUMBUS O Aug 15—The Sherrill government survey committee urged today a compulsory retirement age of 70 for state employes

Reviewing Ohios employes' retirement system it stated that the legislature should amend a provision permitting an employe over 70 to be retained by yearly approval of his department head

This loophole definitely weakens the system and should be repealed the committee informed Gov Davey

Employes contribute to the system inaugurated last Jan 1 at the rate of 4 per cent of their yearly salary not to exceed $80 Each member also is assessed $1 to cover administrative costs

## EXTRA SESSION ANTICIPATED TO LEGALIZE LOAN

Davey Likely To Call Lawmakers Next Month After Promise of U S Aid

TO REPAIR WELFARE UNITS

Roosevelt Assures Ohio of $15 000 000 to $20 000 000 To Carry on Work

By The Associated Press

COLUMBUS O Aug 15—Speaker J Freer Bittinger of the house of representatives said today he anticipated Gov Davey will call a special session of the legislature early in September to adopt a plan for financing the proposed $15 000 000 to $20 000 000 welfare rehabilitation program

Bittinger said the governor had planned to call the special legislative session about Sept 15 primarily for the purpose of financing old age pensions for the remainder of the year In view of the President's approval of the welfare rehabilitation program as a federal public works project he said he anticipated the governor will include the question of financing the state's portion of the program in the call

President Roosevelt has approved Gov Davey's plans for a $15 000 000 to $20 000 000 welfare building program

**Sounding Sentiment**

Bittinger a patronage dispenser in Democratic state headquarters is sounding the sentiment of legislators for a brief special session

The governor has said he would call a special session about Sept 1 to provide approximately $5 000 000 for financing old age pensions during the remainder of 1935 and to consider a few other important matters

Enactment of a new biennial appropriation bill probably also would be considered at the special session

Sen William H Herner chairman of the senate finance committee said yesterday that a new appropriation bill has been drafted providing for a reduction of $8 900 000 from the original bill as compared with the governor's veto slash of $8 800 000

**Won't Call Election**

The governor stood by the announcement he made at the White House yesterday that he would not call an immediate election to choose a successor to the late Charles V Truax representative at large from Ohio

He was even more firm when informed that a suit had been filed in Columbus to force him to call one on the grounds it is mandatory under the Constitution

The cost would be approximately $500 000 and no one I am sure

## WORK STARTED ON 3 WPA JOBS

Eighty One More Men Given Work on New Relief Projects Here

NINE NOW UNDER WAY

Street and Sewer Construction Included in Plans Launched Today

The word to start dirt flying on three more WPA projects in Marion was received today by John Abel county relief director from district headquarters in Mansfield

Eighty one employables were taken from relief rolls and assigned to the three projects two of which will be started Friday and the third Monday

The release of these projects brings to nine the number now under way in the county under the huge WPA program for Ohio Word to start five other approved projects is expected within a few days Mr Abel said

The two projects to be started Friday involve street building and repair work on Mound and Lafourette streets Mound street will be reconstructed from the south side of Darius street to Columbia street and the project will include the laying of an 18-foot waterbound macadam paving The rest of the project is estimated at $3 755 the majority of which will be borne by the WPA

Lafourette street will be reconstructed from the south line of Bennett street 1061 feet to the south line of Brown avenue This project calls for an 18 foot roadway of two courses of four inch dry rolled macadam The cost is estimated at $5 893

The third project to be started Monday calls for the construction of a 15 inch vitrified pipe storm water sewer from the catch basin opposite the intersection of Washington and Prospect streets west 434 feet The cost of the project is estimated at $2 886

The street projects will employ 50 men and the sewer construction project 22 men All will be taken from county relief rolls

## Europe Resumes Debate Over Italo-Ethiopian Tilt

Italian Demand for Colonies Met With Warning of Consequences War Involves

By The Associated Press

PARIS Aug 15—Programs for war and peace in east Africa were weighed today by Premier Laval of France and Baron Pompeo Aloisi of Italy as they conferred for an hour in the former's office

Their talk seemed only to deepen the pessimism of officials

Premier Mussolini's right hand man came to the French government head with three arguments

1 Italy must protect Eritrea and Italian Somaliland against a wild and dangerous nation (Ethiopia) by disarming it

2 Italy must expand into colonies as Great Britain and France have done

3 Italy is starved for raw materials and must develop her own supplies

To these arguments Laval had the following answer

1 War would wreck Europe's long-drawn out efforts for peace and possibly even the League of Nations

2 War would cost men and money and create hatreds although Mussolini could attain his desires gradually and peacefully

3 War would endanger or break the Anglo Italian control of Europe

Following his meeting with Aloisi Laval conferred with his ministry experts He gave them not only the Italian suggestions but also the British as presented to him yesterday by Anthony Eden British minister for League of Nations affairs

A second conference between Laval and Eden was arranged for the afternoon to clear the ground for the formal opening tomorrow of the conversations among Laval Aloisi and Eden

The British are calling these tete power conversations the last chance to transform war into peace before the League of Nations council meets Sept 4 at Geneva

Following his morning conference Premier Laval said only he had a preliminary talk with Baron Aloisi Tomorrow morning

## CONGRESS ENDS HOPSON SCRAP

House Ready To Drop Argument Over Who Should Hold Utilities Magnate

TO TESTIFY IN SENATE

His Whereabouts Unknown as Lobby Inquirers Demand His Arrest

By The Associated Press

WASHINGTON Aug 15 — The way for the senate lobby committee examination of Howard C Hopson elusive utility operator was cleared somewhat today with readiness in the house to drop the dispute over who should have custody over him

Through counsel Hopson announced willingness to testify on the senate side about his Associated Gas & Electric moves against the bill to regulate holding companies once his appearance before the house committee was concluded

Where he was remained a mystery

**Want Him Arrested**

The house rules committee resolved that he should be arrested at once but directed that he be available to the senate when not being questioned on the house side This evidently ended differences between the two branches

Chairman O'Connor indicated however that he might not call up the rules committee resolution in the house He had protested the resolution and his attitude left the question in the air to an extent

Magnificent in blue suit gold chain and flattering eye glasses Hopson the sergeant at arms Chesley Jurney started out last night to hale Hopson before the senate to show cause why he should not be punished for ignoring a subpoena its lobby committee tagged him with yesterday

Followed by a retinue of reporters and aids Jurney cruised in and out of ritzy hotels without success Then in the lobby of the Shoreham the Jurney entourage encountered Rep O'Connor

**Found Him While Back**

O'Connor's house rules committee conducting a rival lobby quiz had succeeded several days ago in locating and summoning Hopson kingpin of the Associated Gas & Electric system which spent hundreds of thousands of dollars fighting the Roosevelt utilities bill

Angry at what he considered the senate lobby committee's horning in on the Hopson hunt O'Connor told Jurney

Hopson's in my custody I've got him Nobody else has got him Nobody else is going to get him

Jurney departed flingering his malacca cane A group of hotel residents and merrymakers who had watched the meeting with interest drifted away

The upshot was that resolutions were drawn up for presentation in both branches of congress today authorizing the officers of the two

## SENATE MAY ENACT TAX BILL TOMORROW

C O P Drive To Let Revenue Measure Go Until Next Session Beaten Back

By The Associated Press

WASHINGTON Aug 15—After turning back a Republican drive to postpone all tax legislation Democratic leaders today forecast a quick windup of senate debate on the $250 000 000 bill and final passage by tomorrow night

Chairman Harrison Democrat of Mississippi of the finance committee also predicted a quick conference agreement between the senate and house on the tax legislation—and adjournment of congress next week

(The senate bill much different from the measure passed by the house provides for increased surtaxes on incomes over $1 000 000 boosts in the taxes on estates and on excess profits of corporations a wider range of graduated levies on corporation income than the house bill increases in capital stock and personal holding company taxes and a new levy on intercorporate dividends)

Word was passed that after this measure is out of the way adjournment plans would be speeded regardless of what administration bills are hanging fire Some believed this would spur agreements on the utilities and omnibus banking measures which still are deadlocked in committee conference

Should a general disposition develop to throw overboard remaining controversial legislation and go home observers felt congress might leave the Guffey bituminous coal stabilization bill the food and drug regulation measure and a half dozen others over until next session

The senate's decisive 55 to 19 defeat yesterday of the Vandenberg motion to sidetrack tax legislation until next January was regarded by administration forces as heralding speedy enactment of the pending tax measure

## AYRES SAYS BUSINESS CLINGS TO ITS ADVANCE

Points to Retention of Gains Following Three Consecutive Recessions After Small Upturns

By The Associated Press

CLEVELAND O Aug 15—Col Leonard P Ayres nationally prominent statistician asserted today that present prospects indicate business will be able to hold most of its recent gains during the rest of this year and even to add more before the period is ended

"There is a more solid basis for the prevailing cheerfulness of business sentiment than the impressive and important fact that stock market quotations have been advancing for five consecutive months" he said in his monthly survey of trade and industry

"The really justifiable reason for a greater measure of optimism lies in the fact that this summer for the first time during the depression business recovery has been able to hold most of its gains

Calling the federal reserve board's index of the volume of industrial production our most reliable indicator of business activity" Col Ayres said it recorded its lowest level three years ago in the production as measured by that index has staged good recoveries and on the three earlier occasions most of the gains have been shortly lost again but this time they have been mostly held

After the first recovery upturn he said 89 per cent of the gains were lost then 88 per cent of the gains that followed several months after the bank crisis in 1933 were lost and after the third recovery period which started in the spring of 1934 the loss was 107 per cent as great as the gain

Finally a fourth recovery began last autumn and ran up to the first of this year Col Ayres said

Since then the general course of production has been a slowly declining one which appears now to have been checked During this decline only 26 per cent of the advance has been lost

To this he added the present prospects are that we shall be able to hold most of the recent gains during the rest of this year and

## PLAN TO VALIDATE BONDS IS PROPOSED

Legislature May Legalize Issues Which Received Majority Vote

A method by which Marion and other cities whose voters rejected proposed bond issues for PWA projects Tuesday might qualify for federal assistance was suggested today by William K Divers chief counsel for the public works administration in Ohio The Associated Press reported today in a news dispatch from Columbus

In Marion the city hall and auditorium and sewer projects received majority votes but failed to get the 65 per cent majority required under present laws

Divers said the legislature might legalize by statute bond proposals that received a majority vote but failed of adoption because of a state law requiring a 65 per cent affirmative vote He said he would recommend to municipal officials that they petition Gov Davey to have the legislature consider validating issues that received a majority vote

About $6 000 000 worth of the $8 000 000 of bond proposals submitted at Tuesday's primary would be affected Toledo and Akron voters were among other cities that gave a majority vote but failed to give the 65 per cent required

## ANOTHER PLAN IS SUGGESTED

Council Group Drops Parallel System and Parkometer Arrangement

ROUTE CHANGES SEEN

Flood of Telephone Calls to McDaniel Protest Against Charge for Parking

Two proposals advanced to solve the parking and traffic problem in Marion were discarded last night at a meeting of the street and alley committee of city council

The proposed substitution of parallel parking for the present angle parking system and the proposal to install coin devices known as *parkometers* to collect fees from motorists for the privilege of parking on streets in the business section of the city were the methods killed by the committee

The action taken by the committee brought a prediction from Mayor C A Bolin today that the state highway department will adopt recent proposals by the mayor and City Service Director C K Mercer that the locations of highways Nos 4 23 and 95 in the city be changed The highway department has given Marion time enough to work out the congested traffic problem here and since nothing has been done I look for the department to take early action to solve the situation for us the mayor said

**Proposal Twice Tabled**

The parallel parking proposal has twice been tabled at council meeting and at a meeting last Monday night council authorized Councilman E H McDaniel chairman of the street and alley committee to study the parkometer system and the feasibility of its use in Marion It was expected to come before council at the meeting Aug 20

The newest proposal to solve the city's congested traffic problem is a change from 45 degree angle parking to 30 degree angle parking It will be presented to council at the next meeting

Councilman McDaniel said he called the meeting last night after he received a flood of telephone calls from citizens yesterday protesting the parkometer system

I never received so many phone calls in one day in my life Mr McDaniel said

The parkometer system is receiving national recognition in newspapers and motion picture newsreels as a result of its adoption by Oklahoma City Okla It would require the motorist to drop a nickel in the slot of a coin device installed at the curb and a charge for overtime parking The system is designed to eliminate parking hogs and bring revenue to the city

Mr McDaniel said the street and alley committee feels that citizens are paying enough taxes without assessing them a fee to park their automobiles in the business section

**Reason for Dropping Plan**

The reasons given for dropping the parallel parking proposal are (1) that it would reduce parking facilities in the business district 30 per cent (2) that it would turn many shoppers from nearby communities from the city (3) that the downtown merchants who are responsible for the proposal to adopt parallel parking failed to appear at council meeting Monday night to back up their previous stand

Mr McDaniel said the committee composed of himself as chairman H F Brobeck and Elmer Flach will propose that council adopt 30 degree angle parking as a possible solution to the parking problem This will provide three feet more of space for traffic on the streets in the business area, he explained

The present traffic and parking situation grew out of protests made last month by the state highway department said to be based

# Ohio Woman Judge Seen as Prospect for Presidency

In 1914 Judge Allen today

CINCINNATI Aug 15—It is no idle gossip say some political observers that some time in the future a woman will rule the United States from the President's chair

The future may be soon it may be scores of years away Only this spring a New York group set up headquarters for a League for a Woman President and Vice President Perhaps that move is the real beginning

Should such a campaign begin and appear at all strong observers believe the women must perforce choose a strong candidate Such a candidate and the New York league has recognized her as being a strong one is Judge Florence E Allen of the Sixth district court of appeals at Cincinnati

**Holds Many Honors**

Judge Allen whose home is in Cleveland holds the distinction of being the first woman assistant county prosecutor the first woman common pleas judge the first woman supreme court justice and the first woman appointed to the federal bench So — Why not the first woman President?

Judge Allen is 51 years old a Democrat and one of the leaders for suffrage rights years ago She is regarded as a capable official for any high executive office A member of the D A R and descendant of a long line of patriotic Americans the jurist probably stands first on the list for eligible women presidents

Born in Salt Lake City Utah on March 23 1884 Judge Allen received her education at Salt Lake college Western Reserve university University of Chicago and New York university

**Suffrage Leader**

It was in 1914 that she was admitted to the Ohio bar For five years she practiced law fought for suffrage rights for women in Cleveland and acted as arbitrator in a street railway case

## 266 DEAD CHINESE OF F ON LONG TRAIL

By International News Service

PHILADELPHIA — Joss sticks burned in the temples of Chinatown as a Norwegian freighter steamed leisurely out of Delaware bay bound for Hongkong

Prayers were for the cargo of the grimy vessel—2ot sacred boxes containing the ashes of Philadelphia Chinese who had died since 1900.

Because the ashes had been kept each in its separate container for some days tong officials knew there would be funds to send them back to the native land

And now the dream is being realized Soft Oriental hands will take the packages from the freighter's crew in Hongkong and bear each back to the village the Chinese once knew as home

Once these pilgrimages were yearly events but dollars become scarce in Chinatown Associations were formed Little by bit the money was collected until this year the cherished plans materialized It is believed among Chinese that their soul will never come to rest as long as their mortal remains are away from Chinese soil

Hemorrhoid Sufferers
Freed From Pile Agony Without Cutting Or Salves

Do you know why external remedies do not give quick and permanent relief?

Why cutting does not remove the cause?

Do you know the cause of Piles is internal?

That there is congestion of blood in the lower bowel—the veins flabby the parts lifeless?

Do you know that there is a harmless internal remedy for piles discovered by Dr Leonhardt and known as HEM ROID that is guaranteed?

HEM ROID banishes piles by removing the cause It stimulates the circulation in the lower bowel—drives out the thick impure blood heals and restores the affected parts

HEM ROID is so successful in even the most stubborn cases that Henney & Cooper and all good druggists advise every sufferer to get a bottle of HEM ROID Tablets today—take them as directed then if not completely satisfied with results—your money back—Adv

# Nearby Residents Say Their Health Troubles Vanished Months Ago

**Well-Known Ohio People Tell Of Long-Time Afflictions That Disappeared So Completely They Don't Need Medicine Now**

**Many Say The New Mixture of Extracts From Nature's Plants, Called Indo Vin, Was A "Blessing" To Their Health**

MR. E. R. MURPHY

The suffering public has long needed a medicine that will bring more than just temporary relief Many local people who took a short course of the Indo Vin treatment as long as A YEAR AGO say they got such lasting benefits that they have NEVER needed medicine since Report after report is being received from former sufferers and a few of their actual statements appear in this announcement.

Marion druggists and the general public have been astounded at the work of this Indo Vin which is a new scientific compound of medicinal plants and is being introduced by The Indo Vin Man in person at Eckerd's Drug Store 140 S Main St here in this city Prominent people say that nothing like it has ever been seen here before

### Why It Works So Completely

Indo Vin is not a patent medicine but a new improved system cleanser containing a combination of Natural plant extracts found in no other known formula It is taken after meals and mixes with the food in one's stomach helping Nature throw off poisons that foster stomach troubles and permit the kidneys and liver to do their work properly

It acts within 10 minutes to stop acid risings bloat and belching It will work on those gases and impurities (frequently from the first dose) which may have been inside you for a long time Thus Indo Vin gives actual relief from headaches dizzy spells bladder irritation and weakness spots before the eyes swelling of ankles and rheumatic pain It will remove the poisons that have caused you many days of misery and benefit the system in general

Following are JUST TWO testimonials selected at random from among the HUNDREDS that are being received from this vicinity praising Indo Vin describing its action and urging ALL WHO SUFFER to get it and take it Read these statements

### Indigestion Gone Over Six Months!

MR F R MURPHY of 609 Bell Ave Springfield O says (photo appears above) Indigestion hasn't bothered me for over SIX MONTHS since I took Indo Vin Before I found this medicine my stomach was always upset and I was simply FULL of gas after my meals and so tight and stuffy with gas in my chest that I could hardly even BREATHE and this gas even had its effect on my heart and the least little thing would exhaust me and take my breath away Indo Vin cleared the gas and bloating from my stomach organs and stopped that stuffy feeling in my chest and around my heart I never get exhausted and I don't have that trouble with shortness of breath any more Yes it has been over six months since I took Indo-Vin and I have been FREE FROM MISERY all that time

### Free Of Rheumatic Agony Six Months!

MR FRANK CECCARELLI of 345 Clifton St Steubenville O says It is the LASTING relief brought by Indo-Vin that seems so wonderful to me It has been SIX MONTHS since I took it and my rheumatic pain is gone For years I had been a victim of rheumatic pain I used to have it in my legs and the joints of my knees were so stiff and sore that whenever I walked I would simply FLINCH with the awful agony I tried a lot of medicine and expensive treatments but got NO RELIEF until I found Indo-Vin and three bottles of it have changed me entirely The joints of my knees are limbered up and I don't have a touch of the old pain I am GLAD to endorse this medicine for it deserves anybody's praise

### Not Expensive

Indo-Vin was unknown a little over a year ago but the demand for it has increased so rapidly that CARLOADS are being shipped to many communities Such large volume permits this high-quality medicine to be sold at lower prices than many ordinary medicines. It costs only a FEW CENTS A DAY to take Indo-Vin so if you are run down have tired sleepy feelings or headachy sick and bilious you certainly owe it to yourself to give this new advanced medicine a trial

NOW BEING introduced to large crowds daily here in Marion by The Indo-Vin Man in person at Eckerd's Drug Store 140 S Main St and sold by all leading druggists in nearby towns throughout this whole section—Adv

### CHAPTER 49
### Laurie's Message

WHERE was Rex Moore then? Did he bear a charmed life or was he dead?

So the madness worked on that brilliant unbalanced brain Until on the fifth day after Rex Moore had been reported missing Mark Albery was found unconscious on the floor of his study in his Chelsea flat.

When he recovered from the stroke his mind was affected and he babbled nonsense about having sent Rex Moore to his death in a plane that had been tampered with Nobody believed it, of course His doctors sent him into a nursing home for such cases and declared that it was only a temporary breakdown and that he would recover his reason very soon

* * *

It was on the following day that Laurie received a wire from a doctor in a remote French village asking her to come at once as her husband was laid up there with a broken ankle

The journey was like a dream to her She flew to Chamounix and from there hired a motor car that took her up into the mountains

And there she found Rex under the shadow of Mount Blanc the snow giant on whose icy slopes he might so easily have found his grave

He was bruised and shaken but he crash had had no worse injury than the simple fracture of his ankle He had been delirious for three days from the results of exposure in a high valley where a party of guides had found him hence the delay in letting anybody know of his plight

They met in a simple room with varnished wooden walls and scrubbed floor From the balcony one looked on the tall solemn pines and the eternal snows under the blazing sapphire arch of the August sky

Laurie walked slowly to his long chair Then she suddenly knelt down beside it.

Oh Rex—Rex—I've found you at last."

I had to send for you Laurie," he answered in a strangely solemn voice "I didn't want to I knew you wouldn't want to come—but you would come because you think you owe me something

Oh Rex how did it happen"

That's what I felt I must tell you Albery tried to kill me

I know I she whispered And she told him what had happened at the London station

He tried before Rex went on That time when you were going up with me You remember I couldn't find my usual mechanic He must have told the strange man to fill my tanks with the new fuel Luckily I had warning from the engine in time and had a parachute"

"And this time?" she asked fearfully

"This time the plane had been tampered with You wouldn't understand It was done by an expert Nobody could have discovered it—until the plane fell to pieces in the air I was lucky again I started off the day before I intended to and the job wasn't quite finished So I escaped with my life I had to tell you Laurie I couldn't bear the thought that you were going to marry a murderer

I knew it Rex And I'm not going to marry him " She was distracted "And I think he's gone mad They've put him into a home

But here there seemed to be no comfort either Rex Moore was still so far away so remote His face was set his eyes had that inhuman snow look his mouth was angry and stern

I knew that day at the station that I couldn't marry him she went on "Not for anything in the world not even for— She stopped abruptly

Not even for what Laurie" Why were you going to marry him" For his money for his position—for what else"

"No—no She broke down He was all she wanted in the world He was her happiness he was her man Nothing mattered but that he should know the truth

Rex he forced me to say I would marry him He found out about us I didn't tell him I had to lie to you And he threatened to ruin your career if I didn't marry him He said he could He wouldn't help you any more he wouldn't let anybody else help you He said he had the power and I believed him

She looked at him in an agony of fear lest he should not believe her

His arms closed around her and held her with a fierce tenderness

* * *

Laurie you tell that for me! How could I lie so like it" Of course Albery could have ruined me in my job Then you to love me" You love me as much as that "

Their lips met They were one in that tremendous and sweet rapture that is both violence and peace

A long time passed before they spoke again

Then Laurie said

But your career will be ruined Mr Albery will never forgive us You don't mind now but later on you will be unhappy Can I make up for that"

You would make up for anything my sweet my wonderful Laurie he told her But I'm no longer a penniless beggar thanks to Wanda Steele

He saw that she did not understand and told her of Wanda's tragic death and of his inheritance She felt a little pang of jealousy that another woman could do so much for him as much more than she ever could even though she was dead But of course she had to be glad

Laurie stayed in the little village until Rex Moore could get about Then they went to Geneva, and were married by the British consul

"So now you're really Mrs Rex Moore " he said teasingly the next day as they strolled by the lake "And how does it feel to be married to a poor devil you started out hating"

"I never hated you " she laughed happily "And it feels too wonderful for words! But life is wonderful—and you are wonderful And what's more it's real

They went back to England to pick up Ginger Rex agreed with Laurie that they could not leave the girl alone

And all the outside world ever knew was that Mrs Rex Moore had gone to Switzerland to be with her famous husband after his accident and the devoted couple so Hamish tells reunited a few months ago were on their way to California where the airman had recently inherited a beautiful estate

MARION WOMAN

rites words of praise for soap that gets clothes whiter from washer

ad what Mrs. F. Fralich of 387 Blaine Ave. says:

These are her own words:

The first time I used Rinso in my washing machine my eyes opened wide with amazement Talk about suds! Why, Rinso piled up into the richest creamiest suds ever And how they loosened the dirt! I was through with the week's wash in half the usual time, and the clothes were at least four shades whiter The colors were much brighter, too That's why I will use no other soap for the week's wash — for dishes and for all my housework."

MRS FRANK FRALICH, 387 Blaine Ave., Marion, Ohio.

You can soak your clothes in Rinso suds for a few minutes, an hour, overnight — or as long as you find convenient. Yet no matter how long you soak your clothes you can be sure that everything will be absolutely safe.

OUR WASHERS ARE EXACTLY ALIKE YET I CAN'T SEEM TO GET THE CLOTHES AS SNOWY AS YOURS
USE RINSO! IT GIVES THICK SUDS THAT GET CLOTHES SO MUCH WHITER
THE WHITEST WHITE EVER — THANKS TO RINSO! AND IT'S SUCH AN ECONOMICAL SOAP IT GIVES SUCH CREAMY LASTING SUDS

Recommended by makers of 34 famous washers

It's no accident that so many leading washing machine manufacturers endorse Rinso They know from experience that Rinso gives rich, lasting suds even in hardest water Rinso is marvelous for dishwashing too. It soaks out dirt, gets clothes white as brand new without scrubbing or boiling. Even stubborn cuffs and edges come clean with a little gentle rubbing between the fingers. Easy on the hands. Keeps them smooth and white. Tested and approved by Good Housekeeping Institute. Get the BIG household package at your grocer's today. It's economical.

The trio is enroute to New Orleans where the capn plans to urge Sen Huey Long no to run for President

# GOVERNOR EXPECTED TO CALL LAWMAKERS

(Continued on Page Seven)

will say that such a cost is justified the governor said

Gov Davey said he was not concerned with the suit to compel him to order an election and that the writ issued in a Sandusky court would not be binding because although the Ohio Constitution makes a special election mandatory it fixes no date

Davey said he had talked by telephone with Secretary Ickes but that he did not see Harry L Hopkins federal emergency relief administrator with whom he has been in controversy saying there isnt anything for me to see him about.

Asked about his plans following the official conferences Davey said

I think Ill take a day or two or rest I havent had one since Inauguration Just try and find me

A formal call by the governor accompanied by an imposing entourage at the White House for his first talk with the President since their quarrel over Ohio relief administration last March was the highlight of a good will tour which enabled Davey to say

Everything is harmony We are cooperating 100 per cent

This put the seal on at least a surface truce which is expected to carry through the 1936 campaign and facilitate the healing of a political breach which threatened to make serious trouble for *both the state and national Democratic tickets in Ohio next year*

**Visit Congressmen**

From the White House Davey and his entourage went to the Capitol where they met in the house military affairs committee room with Ohio Democratic congressmen Sen Robert J Bulkley of Cleveland and Rep Patrick S Drewry of Virginia chairman of the Democratic congressional campaign committee

Davey spoke at length outlining what he considered to be the major achievements of his administration and his plans for a united party front in the 1936 campaign

Later in the day Davey talked over the telephone with Secretary of the Interior Harold I Ickes whom he assured that for mal application for the $15 000 000 to $20 000 000 PWA funds would be forthcoming as soon as legal details could be worked out

**Handed Letter**

As he left the White House today the governor was handed by Marvin H McIntyre presidential secretary the following letter from the President outlining what the federal government is prepared to do toward the states institution construction program

My Dear Gov Davey

I have your letter of Aug 8 1935 in which you request the federal government to make a grant of 45 per cent of the cost of construction and reconstruction of buildings at various state institutions You mention that the state could profitably use between $15 000 000 and $20 000 000 for such projects

It might be possible for the federal emergency administration of public works in addition to making a 45 per cent grant to advance funds by way of a loan for the remaining 55 per cent of the cost of the projects if the state were in a position to offer legal security for such loan I am informed that an arrangement might be made whereby legal security might be delivered

I understand from your letter that you contemplate calling a special session of the Ohio legislature in the near future I have instructed Administrator Ickes to place at your disposal the legal division of the public works administration to assist in the preparation of legislation as seems advisable in order to accomplish the suggested program

As speed is of the essence I suggest that on behalf of the state you file immediately a formal application with L A Boulay state PWA director for Ohio for a loan of 55 per cent and a grant of 45 per cent to finance the projects you have in mind A state program of this nature would seem very desirable

Very sincerely

Franklin D Roosevelt

# SLAYER AND TRAIN WRECKER CONFESSES

**Ohioan Admits He Killed Woman and Opened Railroad Switch**

By The Associated Press

IRONTON O Aug 15—Sheriff Bernard R Monte of Lawrence county said today that James Thompson 26 of Hanging Rock O. confessed to wrecking a fast Norfolk & Western passenger train at Haverhill O on the night of April 12 1932

The wrecking resulted in the death of two members of the crew

The sheriff said Thompson told detectives also that he killed Mrs California Rogers 54 at her farm near here during the autumn of 1933

Thompson confessed beating the aged woman over the head with a poker after she refused to give him money Monte said

The young man made the confessions after he had been questioned for more than two hours by railway detectives

I wanted to wreck the train and rob the mail car Monte quoted Thompson as saying so I took the nuts out of a switch and threw it over with a crow bar and then turned the light around so the green would show

I hid in the woods by the track until the train came along and wrecked when it hit the open switch but I lost my nerve and ran into the woods when people began screaming and climbing from the wrecked cars Monte said he told detectives

The train was bound from Cincinnati to Norfolk and was traveling at 60 miles an hour railway officials said

J H Meyers 55 engineer and J J Kemp 45 both of Portsmouth O were killed Carl Wright 43 of Columbus J H Van Hemmert 50 of Saltdinia and D A Cole of Hilton W Va, mail clerks were seriously hurt

THFORD Surrey England Aug 15—The Italo Ethiopian dispute has in it all the elements of a world war

International affairs are now so interrelated an apparently trivial incident may have immense unexpected consequences

The murder of an Austrian archduke was the match which set into a huge conflagration combustible material which for years had been accumulating

The elements constituting the present menace to world peace as a result of the dispute between Italy and Ethiopia may be summarized as follows

1 The covenant of the League of Nations and the Paris pact make an isolated dispute the business of all the signatories to these documents

2 Unprovoked attack by one of the nations upon another member of the league compels the league to come to the assistance of the jeopardized nation Under the Paris pact such an attack becomes a violation of international law and morality

3 If Italy persists in her declared intention to attack and conquer Ethiopia, then her action is clearly in violation of both the covenant of the league and the conditions of the Paris pact. In the event of war the league must, if it discharges its obligations, take military or economic sanctions against Italy.

There is no doubt about the intentions of Italy. Mussolini has made them plain. He has thrown off the

# SECURITY PROGRAM EXPECTED TO EXPAND

**Roosevelt Envisions Further Adjustments on Signing of New Legislation**

By The Associated Press

WASHINGTON Aug 15—President Roosevelt embarking the government on the new deals vast *social security program foresees* further social and economic adjustments to come

When he signed the security bill into law yesterday he said it was a cornerstone in a structure which is being built but is by no means complete

(The bill which the President said would apply to 30 000 000 persons provides for contributory old age pensions federal state pensions for the aged needy a federal state unemployment insurance system special care for dependent children and mothers It contains a huge tax program to raise the funds)

Legislators and high officials surrounded the President in the cabinet room as he affixed his signature

The measure the President said gives at least some protection to 30 000 000 of our citizens who will reap direct benefits

Declaring that the bill would make this session of congress historic for all time he added

We can never insure 100 per cent of the population against 100 *per cent of the hazards and vicissitudes of life but we have tried* to frame a law which will give some measure of protection to the average citizen and to his family against the loss of a job and against poverty stricken old age

# SCRAP OVER HOPSON ENDS IN CONGRESS

(Continued from Page One)

chambers to take Hopson into custody O Connors idea was that the house should place Hopson under technical arrest so the senate could not get him

**Asks for Arrest**

Chairman Black Democrat of Alabama of the senate committee drew up a resolution directing Turney to arrest Hopson unless he appeared immediately to answer the contempt citation

Turneys hunt had not been entirely in vain He had succeeded in serving on William A Hill of Boston Hopsons lawyer a senatorial contempt citation summoning him to answer charges that he interfered with the service of a subpoena on Hopson

Turney had entered the lobby of the Mayflower hotel and was interviewing the manager No Mr Hopson was not registered there Yes Mr Hill was

Across the lobby was Hill entering the cocktail lounge Hat in one hand cane in the other Turney sprinted for that room Hill had just sat down and was toying with a pretzel when the sergeant at arms drew up

I'm the sergeant at arms of the senate said Turney I want to serve a citation on you

**No Help To Hunters**

Yes sir said Hill chewing the pretzel

Do you know where we might find Mr Hopson? Turney asked

No I couldnt say I have no idea

Thank you '

Thank you

Turney made for his limousine to continue the hunt

Hill said Turneys technique in serving the summons was very lovely But the whole case he said was a terrific legal situation over something that doesnt amount to a hoot in hell"

Hopsons defense he indicated would be that he was under a subpoena from the house committee and therefore under its exclusive jurisdiction

Hill denied testimony before the Black committee that he interfered with a committee investigator who sought vainly to serve a subpoena on Hopson Tuesday The subpoena finally was served yesterday as Hopson left a session of O'Connor's house committee.

But Hopson did not turn up before the senate group in response to the document. After waiting some hours, Chairman Black went before the senate and obtained the contempt citation.

# Official Count of Vote Results in Few Changes

**Board of Elections Completes Tabulations; First Expense Accounts Filed by Candidates.**

Official count or recheck of Tuesdays municipal primary, completed by the county board of elections yesterday made a few slight changes that had no effect on results announced on the basis of unofficial tabulations of the vote

Biggest change was made in the vote received by Carl C Boecker one of three Democratic nominees for council at large His official vote is 1695 eight less than the number credited to him in unofficial returns

Second largest change was the addition of five votes to Major Bolins total bringing it to 1782 One vote also was added to the total of Eugene L Hill who won the Democratic mayoralty contest from Mayor Bolin Hills final vote was 1637 an official majority of 350

**Other Minor Changes**

One change of one vote each was made in the totals of three of the six candidates for the Republican mayoralty nomination Dr Frederick C Smith winner received an additional vote making his official total 1506 His nearest rival Charles A Johnic also received one more vote making his total 575 R E Prettyman another seeker of the mayoralty nomination received 181 votes one less than was credited him in the unofficial totals

Three votes were taken from the unofficial total listed for Frank R McDaniel one of the three Democratic nominees for council at large Harry T Bell also a candidate for the Democratic nominee for council at large received one additional vote making his total 1854

George R Henney Democratic Fourth ward council nominee received one additional vote in the official count making his total 261

Official returns gave the city hall bond issues 3079 favorable votes one more than in the unofficial total and 2495 unfavorable votes an increase of eight from yesterdays unofficial figure The sewer bond issue received 2 805 favorable votes an increase of one from the unofficial total and 2537 unfavorable votes an increase of four from unofficial figures

**Cost Is 99 Cents A Vote**

Cost of Tuesdays election in Marion was approximately $2018 or about 3715 cents a vote a check up at election headquarters shows

The total vote was 6048 Election costs included $1 00 for judges and clerks poll books and tally sheets $180 booth rent $10 50 ballots $95 special issues ballots $21 50 miscellaneous supplies $50

In a tabulation of votes in yesterdays issue of the Star votes received by Republican candidates for Third ward council were omitted and a tabulation of votes in the three sided Republican contest in the First ward was listed as being the Third ward vote

In the First ward Welcome P Cass Jr won the Republican council nomination with 232 votes defeating James A Wilkins who received 198 votes and J S Chambers who polled 140 votes

In the Third ward Republican contest for council A C Vogt was nominated receiving 170 votes H defeated Lloyd Robinson who received 109 and Gayle Owens who received 17

**Pre Expense Accounts**

All primary candidates are required to file accounts of their campaign expenditures by Aug 23 election officials said today Six accounts had been filed this morning City Auditor Frank J Weiler uncontested Democratic candidate for renomination listed his expenditures at $3 25 A H Marks unsuccessful candidate in a write in contest with Russell C Shantz for Republican council president nomination listed his expenses as $2 40 Accounts listing no expenditures were filed by Clarence Hart uncontested Democratic candidate for Fifth ward council nomination *City Treasurer W Kenneth Fobin* uncontested for renomination on the Democratic ticket William A Shuster uncontested candidate for Republican nomination as council member at large

The county board of elections disposed of four disputed ballots before making up the official count On one a voter had placed an X in front of the names of five of the six Republican candidates for mayor and another X for good measure in front of a blank space at the bottom of the list He lost his vote Another voted for two of the Republican candidates for mayor and lost his vote Three substituted check marks for the required X to indicate their preferences and these were counted although election officials commented that the X mark is the proper one to use on a ballot One voter placed an X before the name of one of the two Democratic candidates for mayor and then apparently tried to erase the mark There were no other marks on the ballot Undecided as to his intent election officials disqualified his vote

# BINDLEY DISMISSAL APPEAL IS UP TODAY

**Former Fireman Contests Removal From Department, Judge Kear Hears Case**

An appeal by Burdette Bindley on a civil service commission decision upholding his dismissal from the Marion fire department by Jesse Warrick former safety director was to be heard by Judge Russell H Kent of Upper Sandusky in common pleas court here this afternoon

Judge Kear will replace Judge Hector S Young on the common pleas bench through Saturday because a number of cases in which Judge Young was interested when he was a practicing attorney are scheduled to come before the court

Warrick dismissed Findley from the fire department on a charge of conduct unbecoming an officer and a gentleman The charge grew out of his alleged visits last spring to a disorderly house where it is said to have impersonated a police officer in attempting to extract money from the inmates

On a charge of disorderly conduct growing out of the same incident the court of appeals reversed the municipal and common pleas courts which found Bindley guilty

If Judge Kear reverses the decision of the civil service commission Bindley will be eligible to return to his position in the fire department unless the city would decide to carry the case to the court of appeals Theodore B Ochs city solicitor said Bindley is represented by J W Jolly

# 1,200 OHIO STRIKERS RESUME THEIR WORK

**Cleveland and Celina Settlements Leave State Almost Free of Walkouts**

By The Associated Press

Six hundred bakery workers in Cleveland and 60 factory workers in Celina returned to their jobs today leaving Ohio almost free of major strikes

The bakers in Cleveland had been on strike for more than seven weeks The agreement under which they returned to their jobs provided for a 'preferential' closed shop and negotiation of wage and other demands within seven days

The bakery workers union had demanded a closed shop. The peace agreement provides that any one who is a member of the union or who shall become one shall remain as during the life of the agreement without interference or restraint of the employer

The Celina Chamber of Commerce announced the settlement of the strike at Mersman Bros Corptable manufacturers last night Six hundred employes have been out of work since the discharge of eight employes three weeks ago for organizing the carpenters and joiners union

The strikers asked for recognition of the union reinstatement of the discharged employes and a 10 per cent pay increase The company agreed to reinstate the eight workers but turned down the other requests

# Christians Beat Oakland

## WINNERS CLING TO CHAMPIONSHIP HOPE IN CHURCH LEAGUE

### Victory Over U B Nine Would Throw Them Into Three-Way Tie

Central Christian jumped into the limelight last night when they defeated Oakland 4 to 1 in a softball contest that kept the Christians in championship running of the No 2 Church League and gave them a chance to tie for the league championship If they win a postponed game of July 8 with the United Brethren nine the Christians will tie for league honors with the Epworth Bishops and Forest Lawn

The Christian Oakland game last night was a tight battle all the way Both teams got three hits and made two errors but taking advantage of the breaks gave the Christians the winning runs

**Drives McAninch In**

The first score of the game came in the second inning when the winners pushed a run across when Roscoe Rank's double drove in McAninch who had walked to open the inning Two more runs came in in the third when Carls and Pollock walked and McAninch doubled The final Christian tally came in the fifth when two errors enabled Pollock to cross the plate

All the while tight defensive play was keeping Oakland off the base paths The lone run off Rank came in the sixth after the game was safely tucked away for the Christians Creasap second man up doubled Buckley dubbed the ball and it rolled to Rank who overthrew first and Creasap was safe at third and Buckley at first On the next play Borne hit to the pitcher Rank playing it safe allowed Creasap to score and got Borne at first

**Meet U B Next Week**

The Christians will meet U B next week and the game will decide their championship hopes Should they beat the U B team they will be in a three way tie for first place and a playoff will be necessary before the little world series can be played From the past records of the teams it looks as if the Christians should be able to down the U B team with little trouble but how they would fare in a playoff with the Forest Lawn and Bishop teams is beyond speculation

Other games played last night gave Wesley M E a 10 to 3 win over St Marys and in No 1 league the Epworth Seniors defeated the Epworth No 1 gang 8 to 0

By winning last night's game Wesley went into a tie with U B for fifth place Each team has won six and lost seven with another game to play St Marys was driven further into the cellar and now resting in last place they have a record of three wins and 10 losses

The Seniors—No 1 game had about the same results in the No 1 league except that there are no more games to play The Seniors went into a tie for fifth place with the First Reformed nine and the No 1 Epworth ten clinched eighth place for themselves when they lost the shut out game

Vestal Seniors hurler, held the Epworth No 1 team to a lone hit The game had promise of being a no hit no run game until the last half of the sixth inning when Callahan singled for the only hit off Vestal during the seven inning route The junior team was retired in one two three order in all but two innings—the fourth when Vestal walked Scheffler and the sixth when Callahan singled

## Softball Fans See Fast Game As Girls' Teams Settle Differences Under Lights

Forgetting all about rouge lip stick and other characteristic worries of the feminine sex two girl softball teams trotted onto the Lincoln park diamond last night under the lights and gave Marion fans a show they will remember for a long time The final score gave the Mansfield Red Birds a 9 to 5 win over the Bluffton Girls

It didn't make much difference who won however The score was a minor detail of last night's exhibition What everybody was interested in was seeing how the girls hitter rivals played the great American game The answer is that they played it in great American style

The diamond at the park was marked off with 45 foot baselines and the distance from the pitcher's box to home plate was 35 feet The change cut 15 feet off the base lines and nearly three feet off the pitching distance Aside from these changes the girls played the same rules which govern the local softball leagues

They could play too Somewhat weak at the plate the playerettes made up for this deficiency by showing up well in the field and in the pitcher's box They snagged fly balls made flashy throws across the infield and stole bases in fine style

Playing before 647 paid admissions and probably well over 1 000 people the girls were out to trim their respective rivals Mansfield did The Red Birds smashed out 10 hits including two doubles and two triples The winners struck out a dozen opposing batters and made but four errors Fox Bolt pitching in relief for Bluffton did great work in striking out eight Mansfield batters and only issuing one base on balls

The girls weren't skates Play seven innings? Not them They went the full nine inning route and played hard clean ball all the way Fox Mansfield manager did talk a little loud a few times about what he'd do if he were on the field and the girls seemed to hear him and do the same thing but there's no harm in that. Even the double steal which the manager seemed to foster went off beautifully and although the girls might not have thought it up they certainly carried it out

The individual star of the game was little Ethel Higgins of Mansfield The star was injured in an automobile accident while enroute here for the Old Timers game last week and wasn't supposed to be playing but she did She played first and second she pitched in the tight spots and she smashed out a single double and triple in four times up Whenever any of the second string hurlers got into some minor difficulty like loading the bases with no one out Miss Ethel was called in to strike out three or four of the Bluffton batsladies Running in and out of the pitching position she struck out the Bluffton batters with a fast accurate ball

To local fans who didn't get out to last night's game just this word there'll be another all feminine game soon with Mansfield taking on the Lemert Independents Don't miss it Each team has won one game of the two they've played together Lemert won 4 to 3 in ten innings at Mansfield and Mansfield won 9 to 8 at Lemert The play off will be at Lincoln park soon

## ANSWERS GIVEN ON SOFTBALL RULES

NOTE—In order that softball fans and players can have a clearer understanding of the game a series of rules interpretations are being published Official rules of softball will be used together with opinions of local umpires Readers are invited to submit queries for this feature

Q—Must a runner remain on his base until a fly ball is caught by the fielder?

Ans—A local umpire gives the following ruling on this question The base runner can advance from the base at his own risk on a batted fly ball as soon as the ball hits the fielder's glove If the ball is caught and the base runner advances he must be touched with the ball while off his base to be declared out

Q—Who has the right to the baseline, the runner or the fielder

Ans—If a fielder in in the act of fielding a ball on the baseline the baserunner must go behind the fielder Otherwise the base runner must keep within three feet of the line between the two bases or be declared out

## CARDS, CUBS HAVE LITTLE CHANCE TO TAKE LEAD

### Their New York Visits Losing "Crucial" Aspect, Cleveland Wins

By HUGH S FULLERTON JR.
Associated Press Sports Writer

The opening blast of the current intersectional battle in the National League has gone a long way toward taking the crucial aspect out of the New York visits of the challenging St Louis Cardinals and Chicago Cubs

Despite the world series atmosphere at the Polo grounds yesterday when 50 555 cash customers saw the Giants and Cardinals divide a bitterly fought doubleheader the day's results left both the Cards and Cubs with slender prospects of taking the lead in the immediate future

**Cards Need Four Straight**

After taking a 6 to 4 setback in the opening game the Cardinals needed four straight victories over the league leaders to take first place by a fea percentage points

They won the second clash 3 to 0 when Bill Hallahan helped himself along toward a shutout victory by smacking the first home run of his major league career

The Cubs meanwhile took a double drubbing from their former cousins the Dodgers wiped out the oddity of the percentages which had left them behind the Cards on percentages and trailed St Louis by a half game and New York by 3½

If the Cards should manage to sweep their three remaining games with the Giants and the Cubs should make a similar cleanup against Brooklyn the standing still would look this way

| | Won | Lost | Pct. |
|---|---|---|---|
| Cardinals | 67 | 41 | .620 |
| Giants | 68 | 42 | .618 |
| Cubs | 70 | 45 | .609 |

Dizzy Dean who remained in his hotel with a slight cold is expected to hurl for the Cards today against either Roy Parmelee or Hal Schumacher

The day's real payoffs were recorded in that section of the standings where pennant hopes are growing faint if they haven't already been abandoned

Along with Brooklyn the fourth place Pittsburgh Pirates and the cellar dwelling Boston Braves turned in double victories The Bucs knocked off the Phillies 8 to 1 and 7 to 1 while Boston went on a swatting spree that netted 27 blows and trimmed Cincinnati 8 to 1 and 11 to 6

**Tigers Win 18 to 2**

The Tigers turned their heavy guns on Washington pitching and hammered out an 18 to 2 decision putting together six run innings against Buck Newsom and Millard Hayes That again increased their lead to six games The Indians turned back the Yankees 7 to 6 when O Dell Hale's ninth inning double with the corners crammed produced the deciding pair of runs

The Red Sox consolidated their hold on third place in the standing by beating the White Sox 7 to 1 behind Fritz Ostermueller's one hit flinging

The Athletics with Jimmie Foxx swatting two homers to bring his season's total to 22 bowled over the Browns 8 to 2

## HAMBLETONIAN WINNER GETS BUT SLIGHT THRILL

### Greyhound Hailed as Greatest Trotter Since Days of Peter Manning

By The Associated Press

GOSHEN N Y Aug 15—Winning $18 670 in the light harness horse racing's premier event with a colt hailed as the greatest trotter since Peter Manning would thrill most people but not the veteran Sep Palin who yesterday drove Greyhound to a straight heat victory in the Hambletonian

Sure I liked to win the money said the 57 year old Indianapolis horseman after seeing the grey speedster bedded down for the night at Good Time park

But honestly I got no more kick out of it than winning a $300 race

Maybe it's because of the habit that Palin has of turning up with two minute performers He's driven several of them including three great racers Winnipeg His Majesty and Star Etawah all owned by E J Baker of St Charles Ill as is Greyhound

Under his guidance Winnipeg hung up a record of 1 57¾ a world record for geldings at Toledo in 1926 while His Majesty paced a mile in 1 59¾ last year to establish a new mark for four year old He drove Star Etawah over a mile in 1 59¾ four years ago

*Greyhound is the greatest trotter I have ever handled* said Palin who has been training horses for 30 years

If he remains sound don't be surprised to hear of him lowering Peter Manning's mark when sent along the rail against time with running horses as pace maker Mr Baker and I fully intend to send him after that mark

Greyhound traveled the two heats yesterday in 2 02¾ and 2 02¼ for the fastest time ever turned in by a winner of the Hambletonian

Palin joined up with Baker one of the two heirs to the fortune of John W (Bet a Million) Gates some 10 years ago

Nearly 40 000 saw the lanky grey come from far back in his heat to win much as he pleased for he was the odds on choice to whip the eight other starters

"The fifteenth century marks the period of development in firearms. By 1425 bullets could penetrate armor. Lead bullets were used but the powder was so weak that it was necessary to have a long tube to complete combustion and add force to the projectile. The match lock was invented late in this century and rifling in 1498.

"About 1509 the wheel lock was invented, the true flintlock was introduced about 1580 and was universally adopted and maintained its supremacy for nearly three centuries and is used to this day in some countries.

"The pill-lock was used late in the eighteenth century and was the first step in the development of the percussion type of primer shortly afterward.

"During the nineteenth century many different kinds of breech loading arms were tried out. Some used paper cartridges, linen cartridges and later rim fire, pin fire, center fire and other types.

"It has taken more than six centuries to develop the pistols, rifles and guns to the fine state of perfection we are accustomed to at this time. The skill of the artificer of many of these old weapons is well recorded in the beauty of design and proportion. Many are beautifully carved and some are inlaid with ivory and silver."

## ATHLETIC EXPENSE DECLARED ILLEGAL

**Wyandot County Findings Reported by Examiner.**

Funds spent for athletic activities in various Wyandot county school districts formed the basis today for findings by Marion Burns, a state examiner for the bureau of inspection and supervision of public offices.

Expenditure of $301.50 for transporting athletics teams and $22 spent for other purposes in connection with athletic activities resulted in findings. Others were made at Upper Sandusky for purchase of uniforms. Findings against one athletic supply concern amounted to $1,321, against another for $171.40 and against an individual for $23.

He states he reimbursed himself his $5,000 investment plus $730.51 due him and that there remains due him from the partnership $207. He seeks full protection of his interests.

## The Marry-Go-Round

BY HELEN ROWLAND

### PASSING THE PAPRIKA

No two women could say as much in an hour's conversation as is expressed in that silent look of soul communion which passes between two men about to take a drink.

• • •

There is nothing really new in the "new morality." It is the same sort that was in vogue away back in the carefree days, when our ancestors lived in trees. Yet every now and then some popular exponent of sex psychology comes along and springs it as a bright, original discovery.

• • •

At sixteen a girl's ideal man is one who looks like a collar advertisement; later, it is one who looks like an advertisement for fifty cent cigars, vintage wine and three A's in Bradstreet's.

• • •

As long as they speak to each other, a man feels sure that the two women in his life are perfectly en rapport—and never suspects that either of them would cheerfully feed the other ground glass.

• • •

Woman is born with a naturally curly imagination just as often as she is born with naturally curly hair; and she is as ready to change the color of one of them as of the other, in order to please the current man.

• • •

No man believes in miracles nowadays. But every one of them still clings to the sweet hallucination that he will some day find a woman with enough brains to understand him—and enough stupidity to let him do all her thinking.

• • •

Funny, but it costs more for a woman to dress so that she will look as though she had on next-to-nothing, than it cost in the good old days when she wore enough clothes to sink her if she fell in the water.

• • •

Whether love is "the greatest thing in the world" or not, it will always make the most interesting reading.

• • •

The young man who regards marriage as a joke has a sufficiently keen sense of humor to carry him through all the vicissitudes that will follow his wedding day.

• • •

No girl could possibly be so bored as a married man pretends to be.

## DEATH AT CROSSING BRINGS $2,999 SUIT

**Special to The Star**

CHAPTER ONE

**Rebellion**

WHEN Emily Felton was eight years old she ran away from home with the intention of joining a street carnival

Her flight was not precipitated by neglect, at home she had every care and attention that a child of eight might expect or wish

But the street carnival which held forth on a vacant lot belonging to her father, seemed at a glance to be extremely gay and noisy and unrestrained and Emily's home was none of these things It was correct and luxurious, with a great deal of emphasis upon the loftier virtues such as Duty to One's Parents and Responsibility to the Poor

Fortunately or perhaps unfortunately the owner of the carnival was not an opportunist Instead of angling for a reward he immediately found out her name and conducted her back to the paternal roof

Mrs Felton was incredulous 'Emily, how could you possibly want to leave your beautiful home and go away, with those dirty vagabonds?

In view of his sporting conduct the owner of the carnival considered this a bit thick He retaliated

If you ask me there's worse things than dirt

Frances Felton had the grace to look abashed but his back was up He continued his assault

Not being able to laugh for instance or to slip the leash occasionally

*Mrs Felton bridled* She felt that he was presuming upon the obligation she was under You see what happens when a child of eight does slip the leash as you call it

Now This is what happens *when she don't slip it occasionally* He turned to the tearful Emily Did you ever steal green apples or run away and go wadin before the correct day to go wadin?

Emily shook her head Until this *recent revolt none of* the extra legal pleasures had seemed even a remote possibility

Then he concluded that's why you ran away to join a street carnival If I was you ma'am he suggested to Frances Felton I'd give her a little more rope

Mrs Felton's pretty chin looked stubborn I shall be the judge of that She produced a bill and handed it to him I'm really very grateful to you

He took the bill and looked at it thoughtfully I wouldn't take this he said at last with a disrespectful twinkle If your husband hadn't charged us too much for that lot.

With that one brief bid for freedom Emily's energy was spent.

• • •

When Emily was sixteen the question of college arose Mrs Felton considered it judicially with her husband

Ardmore is really an excellent school

Mr Felton considered it too Besides being president of the soundest bank in northern Alabama he was big and shrewd and twinkling but he was no match for his wife

Ardmore's no Vink tea he demurred

I'd like to go to Bryn Mawr that she would go where Frances Emily put in knowing quite well decided to send her

But Ardmore has almost as high a standard and it's near enough for us to see you every week or so Frances pointed out

That Emily thought to herself was why she had put in for Bryn Mawr Bryn Mawr was 24 hours from home and she wouldn't have that uncomfortable feeling that her mother was apt to drop in at any time

Her mother was wonderful and Emily had no intention of doing anything of which she might disapprove but college was supposed to foster Independence wasn't it?

Frances Felton didn't think so Her idea of parenthood was careful supervision until the day when she could commit her daughter in a state of pristine innocence to the arms of some fine young man selected by herself She was plump and pretty and deceptively soft that type of woman who boasts of not cutting her hair or shortening her skirts because John won't let me thereby preserving her own illusion of complete submission

She expected to rear her daughter in the same illusion to hand on the torch to a young man of unimpeachable morals A decade ago there were a great many women of her type it is probable that there always will be And Ardmore was chosen as her daughter's Alma Mater

The next fall Emily entered Ardmore She was 17 then slight and dark with a small exquisitely chiseled face that might one day flame into beauty Mrs Felton had selected her wardrobe carefully excellent garments appropriate for a child of 17

She herself had been married at 17 but the fact had escaped her mind and Emily's clothes although quite as expensive, were not at all those of a bride

Edwin Barnes came over the night before she left to say goodby She had played tennis with Edwin on the Felton court had gone swimming with him in the Felton pool but he had never so much as held her hand

Although he would have enjoyed it very much, Edwin had no idea of holding her hand until he was in a position to ask her

sible successor to Frances Felton

He was sober and very reliable When other young men were drinking heavily and assiduously avoiding the mention of careers he was quietly finishing up his course at business college and planning to enter his father's wholesale grocery business

The boys didn't like him a great deal because he cramped their style not intentionally but thoroughly He tried to laugh at their jokes but it wasn't until everyone else had laughed that he realized they were jokes and that made him difficult

With Emily he felt thoroughly at ease probably because Emily rarely laughed either She had tried it once or twice with Edwin but the result was discouraging and she had relapsed at last into gravity

They sat in a swing on the terrace chaperoned by a flood of golden light from the living room window There was a moon shining and the air was heavy with the sweetness of a nearby rose garden but Edwin manfully kept his head and talked about college

I understand that Ardmore has the finest swimming pool in the south

Yes said Emily without enthusiasm She was watching Edwin's face in the luminous darkness And realizing for the first time that it had a certain delicate beauty She wished with a sudden thrill of horror at her own depravity that he would quit talking about swimming pools and take her in his arms She had never kissed anyone but her own family but this sense of closing a door on childhood was doing something to her

Edwin was watching the small quiet face near his own and longing to do the same thing, but the whole sale grocery business had been very uncertain of late and the knowledge restrained him

Are you going to write to me sometimes? he asked instead with a wistfulness that might have betrayed a great deal to one who knew the signs

Because she sensed that Edwin would never so far forget himself as to kiss a girl until he had proposed to her and because tonight she was weary of caution Emily's voice was sharp

What's the use? I'll probably be coming home every week end

He didn't insist That was the worst of Edwin he never insisted He put forth a request or a suggestion as tentatively as an insect puts forth its feelers and *at the first sign of opposition* snatched it quickly back Emily wondered idly about the grocery business surely it required more aggressiveness than that

And can I see you when you're at home?

Of course You always have

Edwin was discouraged He rose slowly from the swing Well you'll want to get an early start tomorrow so I'd better be going

At the door of his car he turned and took her hand I—hope you enjoy it a lot he said unsteadily

She saw in his eyes that he wanted to kiss her and her small face was suddenly alive and vivid I'll try

He leaned swiftly towards her and Emily's lashes drooped over shining eyes They as swiftly he caught himself and stopped He pressed her hand hard

Goodby he muttered and got quickly into the car

In her own room Emily rested her forehead against the doll catch carved bedpost and closed her eyes He's like everything else I've ever known she whispered wearily Careful and safe Her mouth hardened suddenly I wonder if all my life is going to be that way

Emily ran away to join a street carnival

CHAPTER TWO

**Ardmore**

ARDMORE in not far from Tilton Alabama It is near Birmingham about two hours drive Emily noted from her own front door Although she had seen the college before she was conscious of a vague disappointment as the car bore her and her mother towards Main Building

Esthetically the Ardmore of a decade ago was not very satisfying It was too prone to ignore the amenities of living for the rigors of learning There was no architectural unity in the buildings and exchange professors from Trinity or Edinburgh found themselves to their surprise quartered in rococo relics of the nineties which the campus like an enormous amoeba had absorbed as it grew

Modernism except in such courses as were necessary to maintain the school's standing had not been allowed to rear its head and its little professors taught a doctrine of fire and brimstone while its professors of science conducted discreet experiments with the Mendelian laws of heredity and expounded the Darwinian theory of natural selection

Smoking went hand in hand with chewing as a capital offense and automobiles were instruments of the Devil for the furtherance of his private ends

Before committing her child to the college care Frances Felton had a long interview with the Dean which strengthened her own conviction of the rightness of her choice

Dr Markham was a fragile lady of the post Victorian era had grown up with the school and who managed through the sheer force of her convictions and her unimpeachable gentility to control five hundred girls without raising her voice

Freshmen trembled in her presence and were uncomfortably aware of their hands and feet graduates saw her devotion to her school and her students and paid her unstinted tribute

• • •

She and Frances liked and respected each other immediately They saw eye to eye in the matter of training young girls for life Over a cup of tea in the Dean's immaculate parlor they discussed and settled Emily's future

I can't tell you Frances assured her warmly what a comfort it is to know that Emily is in your care

Dr Markham smiled You are very kind It is a great comfort to us to have girls like your daughter at the school They make it what it is

Frances shook her head Not entirely No matter how fine a girl is she needs to be directed

Dr Markham sipped her scented tea delicately

That is true Our secret lies in directing rather than ruling We give our girls more liberty than any other school in the South on the assumption that they are capable of appreciating it They know our high ideal and strive to live up to them It has been very successful

Frances glanced at her watch rose and extended a plump hand I must not monopolize your time You have been more than kind

It would be inaccurate to say that Dr Markham shook hands Rather she allowed her hand to be taken I hope you will come and see us often We like *to feel* that parents are interested in our efforts

Thank you I shall Frances assured her

She went then to the Freshman Dormitory an outmoded red brick building with rooms large enough to house a modern efficiency apartment and climbed two flights of stairs to her daughter's room

Emily was arranging books and pictures Her face was flushed and dirty and her eyes were shining This she had begun to realize was more nearly freedom than anything she had ever known

Are you staying for supper? she asked gally

Frances shook her head No I told William to come for me at five and I fancy he's waiting now You know I never like to leave your father alone for meals

• • •

Jeffrey Felton was always your father when Frances spoke of him to Emily It was as if she disclaimed any relationship with him outside the paternity of her daughter

Well kiss him for me and tell him I'm expecting a visit as soon as he can get away Do I mean not William

Frances looked at her thoughtfully In her day a girl was pale and tearful over the idea of leaving her home You will remember I hope dear that we're expecting a good deal of you

The brightness faded Of course Mother

I'm sure you will Frances kissed her with real tenderness and went to her waiting car

Emily's roommate whose name was Judith Carroll arrived later in the evening It was quite *typical to Judith* Emily learned afterwards to arrive everywhere a little later than everyone else Her tardiness wasn't intentional It usually resulted from an unwillingness on her part of other people to leave the place she happened to be

She was tall and slender with cloudy dark hair and intensely blue eyes that hid a dozen odds of people and things but few individuals except that curiosity or the energy to acquire She flung her hat on the bed her coat on the other took in the room at a glance and held out both hands

How do you do I'm sure we'll be very good friends Judith succumbed at once the smile was a revelation of charm How do you do?

I'm having terrible luck with my hair Or beauty I always do it's a fair thing

Later Emily came to know that for Judith's family were descended from the same ancestor Is there anything I can do to help you unpack? she asked a little shyly

Judith ran a hand through the short cloudy hair and stretched Thanks no there's nothing to unpack I intended to get here in time to rescue my trunk from the maelstrom below but David made me late as usual I'll have to sleep on the mattress but I've slept worse before this!

## The Stars Say--

For Thursday Aug 15

A DELIGHTFUL prosperous and altogether happy day is presaged by the dominant planetary forces With Jupiter and Venus holding sway there is likely to be much doing in regard to the social domestic and affectional side of life This is an idyllic and uplifted by a tendency to the mystical altruistic and idealistic High aspirations are stimulated despite petty irritabilities

Those whose birthday it is are assured a prosperous happy and inwardly gratifying year with the energies turned to social domestic romantic and probably altruistic engagements There is some prospect of travel by water

A child born on this day should have a highly idealistic and mystical nature inspired by love and brotherhood In all its manifestations Its talents would be inspired and cultivated by such aspirations

## On the Move

President Roosevelt plans to go traveling when congress adjourns So far only one point of his itinerary is known San Diego Calif where an exposition is in progress

The President's plans are important because they are the first moves in the new presidential campaign Henceforth everything Mr Roosevelt says and does will have political significance for some one

Thus the report he will travel west by going south is interpreted as a sign that Sen Harrison's Mississippi constituents are going to be honored with a visit Sen Harrison faithful wheelhorse comes up for reelection next year too

At one time it was believed Mr Roosevelt would return to Washington from San Diego through the northern states showing himself to crowds at intervals across the country and perhaps making a few speeches After the Rhode Island election however it seemed probable he might return to Washington from San Diego by way of the Panama Canal thereby saving the possibilities of a northern tour for a time when they might be turned to better advantage

Presumably, little boys mothers still want them to grow up to be Presidents As jobs go the presidency is a fair one—none too much money no chance for advancement but interesting work and lots of authority and prestige Yet when election begin to bother politicians again and it's time to be on the move for the sake of the party even a President must wonder if it's worth the effort Or do political candidates enjoy campaigning?

## Fault.

A conspicuous detail in the WPA strike in New York City is the conflict of policies between that agency and its half brother the PWA The latter agency pays prevailing wage rates WPA on the other hand pays less than prevailing wage rates Yet, both are relief agencies

Here is a glaring fault It has been seized upon by organized labor to embarrass the federal government William Green president of the American Federation of Labor demands a transfer of WPA projects in order to accommodate his organization's viewpoint on relief wages

The discrepancy is typical of a condition in the administrative branch of government that is causing many observers to believe the most serious threat to good government in the United States is the virtual impossibility of integrating a vast bureaucracy Americans who cherish dreams of an authoritarian state patterned after one of the several European models forget that with the exception of Russia no centrally administered government abroad attempts to regulate the lives of so many millions of human beings

The United States does not have a strong tradition of civil service On the whole its jobholders fall far short of the standard of British jobholders for instance whose public duties are performed with strict regard for intelligence and honesty that can be instilled only by a sense of pride in bureaucracy The WPA PWA mixup though not clearly the result of carelessness does reflect nevertheless the disunity and aimlessness which are causing Americans to wonder whether or not the planners of the new economy set are not overestimating their own capacity for administration

## "Anxious Feelings"

It has been overlooked in discussion of the forthcoming Italian campaign against Ethiopia that some of the most nervous spectators are white residents of the dark continent They are aware of a danger to which Premier Mussolini and his militarists have given little thought

The Italians are members of the white race Their invasion of Ethiopia will be considered an affront not only to Ethiopia but to the inhabitants of territory bordering on the kingdom of Emperor Haile Selassie A race war is a real possibility

Gen Jan Christian Smuts former prime minister of South Africa is reported to have said There is no doubt in my mind that an invasion of Ethiopia by Italy will arouse anxious feelings throughout Africa between blacks and whites A grave conflict in Africa on the borders of British territory must have serious repercussions in British territories such as Sudan and Egypt"

Race feeling is more deeply rooted than national feeling. For centuries white men have been exploiting other races Africa, which has been divided up by the governments of the white race now is being challenged for its last important independent territory Italy's invasion of Ethiopia may arouse something more serious than anxious feelings If Africans are made to see it as an issue between races instead of nations

## Worse Than Cold Feet

There will be no taxation for revenue this session of congress nor the next session unless something unexpected turns up The senate finance committee has made that much plain by suddenly reversing itself on the question of widening the base of the income tax

The narrow base will be retained in accordance with President Roosevelt's recommendations for a split tax on corporations and individuals The decision obviously was dictated by that most practical of all practical political researches—exigencies of the next national election Politicians do not vote taxes that will affect large numbers of voters just before election time

It would be reassuring to believe the senate finance committee merely got cold feet on the matter of recommending a tax for revenue Unfortunately there seems no reason to give it credit for that much honesty A more likely explanation is that the committee never intended to face the problem squarely It talked about a real tax bill for effect intending all the time to switch over to the kind of an inequitable bill President Roosevelt has requested when the right moment came

Obviously citizens of the United States do not want congress to increase taxes But they are increasingly aware of the inevitability of one of two things Either the government will have to get more revenue or drift into ruinous inflation which is the only alternative to taxation when deficits grow unwieldy Left to their own devices politicians would rather drift into inflation than stand resolutely for heavy taxation to avoid it Prodded by public opinion however politicians can be persuaded it is safer to increase taxes The real question therefore is whether or not taxpayers themselves are willing to stand behind politicians who prefer heavy taxes to ruinous inflation

Members of the present congress aren't willing to take a chance They fear the effect of shattering the delusion that a split tax on wealth can make heavier taxes on persons of small means unnecessary

## A Million an Hour

The estimated cost of operating the federal government from July 1 1935 to July 1 1936 is $8 500 000 000 By a coincidence that is a daily cost of $23 972 784 or approximately $1 000 000 an hour It is a convenient way to comprehend the tremendous spending rate of the period

The estimated deficit for the current fiscal year is $4 800 000 000 a rate of $12 400 000 a day or about $500 000 an hour The latest treasury statement shows the estimated rate has been exceeded by daily deficits since July 1 They have been running $13 300 000 every 24 hours If that rate were maintained the deficit at the end of the year would be $4 851 500 000

From figures like these one may turn to the most important political story of the day—France's effort to avert inflation of its currency The French government has been operating with a large deficit Remembering what happened in the chaotic inflationary years from 1918 to 1926 thoughtful Frenchmen are trying to prevent a repetition of that national tragedy

A handful of resolute statesmen are trying to reduce expenses They are being opposed bitterly by many groups which claim injury Government workers and veterans are proving most troublesome There have been riots and there will be more Devaluation isn't easy inflation is because it follows the line of least resistance The United States spending a million dollars an hour on an income of about half that much can afford to pity struggling France But France having tried the easy way once down deep in its heart is wondering what the United States will be thinking about inflation when it's time to pay the piper for the merry deficit tune

## Neighborhood History

EARLY SETTLER

It is believed that the first white settler in Morrow county was Evan Holt who came to Chester in 1807 Cyrus Benedict settled in Peru township in 1809 and the Shaw settlement in Westfield township dates back to 1808

Cardington then known as Morven township was not settled until 1821 and the first settlement in Gilead township was in 1817

Asa Mosher built one of the first grist mills and saw mills in this section of the state The mill was erected in 1818 between Mt Gilead and Cardington before the land was surveyed and opened for settlement

NEW YORK, Aug 15—Whispers of great bravery on the part of one of the most celebrated of the young men about town, Billy Leeds continue to percolate from those outer fringes of the world known as the South Sea Islands Leeds shakes his head and hoots stories of his valor

As one story goes Leeds on a yachting cruise around the world stopped off at one of the remote islands It was such an idyllic dot in a faraway world that a stay of two days was extended into several weeks and Leeds became very popular with the Polynesians

So much so he was made an honorary member of the tribe slept in a special hut hunted fished and swam with them He arrived only a short while before an special three-day tribal celebration and was implored to remain and be inducted into the ceremonies

He yielded before he had learned that much of the ceremony led up to a religious frenzy, that was climaxed by self torture Leeds drawn into the mass determined to see it through and did Among the agonies he endured it is said was the tattooing of a tiger's head on his chest with a snarling tooth

# Washington And Wall Street

BY PAUL MALLON

WASHINGTON Aug 15 A business inflation is coming probably early, next year The sharpest economists here are convinced of it They are so sure that they speak of it in an offhand manner as a certainty In fact the administration is making some preparations for it in accordance with the bank bill

It will not be the kind that the congressmen are talking about—not government inflation That has been going on for four years It started with the first unbalanced budget

The new turn will come when the demand for goods exceeds the supply thus causing a precipitous rise in prices There will be a rush for goods which cannot be stopped by existing cautious inventories Prices will be bid up abnormally for whatever stocks exist

With two and one half billion dollars of excess reserves in Federal Reserve Banks to finance expansion of activity you can see that the possibilities are quite live ly

Key

A gentle hint of what is coming lies behind the announcement by General Motors that it is spending $50 000 000 for plant expansion Lord is supposed to be planning a similar expansion

Unfortunately this is not true of all industry or in fact any other industry at present If it were it would be the finale of the gloomiest because this phase of business activity is the single key to the unemployment problem

The bulk of the jobless is in durable goods industries They are the men who make equipment for the manufacturers They will never get back to work until manufacturers find that demand warrants expansion

Routine

The automobile makers found it out this summer Their industry has been the first to recover The reason is they decided to put out a better product at a cheaper price The way the public gobbled up that product was beyond expectations Production continued abnormally high into the summer season Late orders had to be rushed through for steel Next year the motor men are not going to be caught short that way They are expanding

A somewhat similar situation developed in summer clothing Manufacturers underestimated demand failed to manufacture enough goods to meet it That is why fall goods are being advertised so early this year

When industry generally encounters this situation forces will be generated to bring on the economic price inflation The best economists do not believe the time will come this fall but they will bet on it for early next year

Soft Pedal

The tip I now being spread around that the stock market has overanticipated fall business improvement That plaint appeared in an administration magazine this week The argument was advanced that fall improvement belongs to a past era when farmers did not receive their income until they marketed their crops It is an inconsequential half truth The great bulk of farm produce will move in the fall although the New Deal ers are passing out considerable money ahead of time

Prospects

Most economic authorities expect a good autumn The activity in machine tools and in residential construction is what is encouraging them

Residential construction is still low but is creeping ahead in every section of the country For instance it was about 34 7 per cent in June as compared with 22 last year 5 in 1929 and 17 6 in 1927 (the peak)

The administration is going to play up this phase of activity shortly A stimulating Hollywood will be made out of it That is why Treasury Secretary Morgenthau recently brought down his friend [illegible] to Florida for a golf match

Power

The important hidden question behind the new bank bill is Who is President Roosevelt going to appoint to the new Federal Reserve board? No one has an inkling It is a certainty that there will be at least three new members As there are no restrictions on the President the identity of the men means far more than the new bank bill itself He could appoint Senator Thomas or J P Morgan and give the bill one meaning or the opposite one

Stirring

Last Monday the lethargic cabinet textile committee which has been sleeping for weeks was hastily called into session Next day a second session was held There is no question that the New Dealers read the Rhode Island election results

NEW YORK Aug 15—Former President Hoover's challenge to President Roosevelt on the Constitution just given much thought by New York interests It is doubted whether Mr Roosevelt will give it any serious attention

A leading industrialist told your correspondent that Mr Hoover's remarks will not be taken seriously until he doesn't choose to run Since Hoover's political position is doubtful it isn't known whether he makes these statements to throw his hat in the ring or whether he is saying things to remain at the top as GOP boss It is believed he would do more to help the Republican party if he disclosed his political position

Does he want to run again or doesn't he?

Until he tells what it is all about his statements will be given slight consideration here—that courtesy given only because he is the ex President

Grant

Secretary Ickes worked himself into a fine mess Utility interests are anxious to know what he is going to do about the San Francisco Hetch Hetchy power situation If Ickes lets the matter slide it will be a plum for the utility boys They will urge cities to borrow money and build municipal power plants Private corporations will buy the juice and then retail it to the consumer—at a handsome profit That's what it looks like

Here's the San Francisco story About 13 years or more ago the city was given a congressional grant—the Raker act—to own and operate its own water and power project The city sold $100 000 000 worth of bonds and the plants were constructed The electric output is not being sold by San Francisco to consumers It is being sold to the Pacific Gas & Electric company—a private corporation—for the sum of $2 000 000 a year

Fight

Not so long ago Secretary Ickes had the San Francisco city representatives on the carpet He wanted to know how come the sale isn't direct to the consumer He pointed out that the city was directly violating the Raker act The city's answer was that it was only a temporary sale of the electric power This didn't go with Ickes because the city has been doing it for almost 10 years

A citizens group has been formed to urge Ickes to seize the whole Hetch Hetchy project They want him to establish a TVA in California and so work the property It is believed by this group that if sale is direct to consumer more than $2 000 000 could be obtained In that way the $100 000 000 Hetch Hetchy debt of San Francisco would be paid off They demand action Thus far Ickes hasn't said a word about it.

The utility boys hope he remains mum They expect him to be relieved from office before he has anything to say In fact—so it is hinted—the utility boys are finding ways to convince President Roosevelt that Ickes isn't fit for a cabinet position It means money to utility interests? This is another Utility vs People fight

Trouble

The discovery of [illegible] in Kern

sympathizers are organizing for a general strike They have created a city central committee consisting of two delegates from each union and group including marine workers seamen longshoremen teamsters etc Harry Bridges is kingpin The central committee is empowered to call a general strike of the so called united front

Vessels coming in with hot cargo (non union) are being picketed Strong arm men are drifting into San Francisco to do picket duty Barge companies are putting on strike breakers to break the longshoremen's strike New York shipping interests are closely watching the situation It is feared that labor trouble may spread along the Atlantic coast

Publicity

The Nazi government is doing all it possibly can to get the American team into the Olympic games It has gone so far as to have its publicity department mail releases to newspapers Almost every sports writer in the country has received a letter from one Arthur F Grix Room 903 665 Fifth avenue New York City To out of town newspapermen it sounds as if a wealthy Fifth avenue resident is pleading for American sportsmanship But that isn't so

The offices of the German tourist bureau are located at 665 Fifth avenue So are the German Railways and other German organizations All are located in room numbers running from 201 to 210 It goes without saying that 903 is part of that office suite A telephone call to the German tourist bureau verified the fact that Mr Grix is an employe Thats publicity

Excuse

Wealthy interests who contribute to the American Olympic fund are against sending a team to Germany The Anti Nazi league has started a drive to stop money donations for that purpose It is believed that American competitors will not be given fair opportunities—regardless of what Nazi officials promise As it stands very little money is being collected It is expected—according to those in the know—that the United States team will find a diplomatic excuse when sailing time comes around

Sidelights

A national trucking organization is in the making via consolidations as a result of the new bus and trucking act Sharp advance in the price of New York Stock Exchange memberships made the boys very happy Gave them that much more money credit with which to speculate Shipping authorities predict an increase of 2½ per cent in gross freight movement for the current three month period—third quarter Rail security statisticians predict an increase of $40 000 000 in revenues for the Class 1 carriers—for the last six months of this year

EARLY COLUMBUS LIGHTING

No provision was made for lighting the streets of the primitive capital of Ohio when Columbus was first established in 1812 Lard lamps were used generally for interior lighting Street illumination depended on such light coming from windows and doors of cabins and if the wayfarer desired more he need must carry his lantern

The lantern was usually a crude affair of tin and punched with holes and containing a candle Even in the state house the best lights were lard lamps and candles In the closing years of the Thirties in the last century the double reflecting lamp came on the market Later sperm oil was used to be succeeded in turn by kerosene a fuel avoided at first because crude refining resulted in many explosions The double reflecting lamp mentioned above was invent

Mrs Etta Reisman has a husband who runs a chain of [illegible] parlors and Mr Reisman's bond secretary but has [illegible] him no longer his wife [illegible] her and presented a pathetic spectacle as policemen led her to court

That wife killer of the old woman drooping half [illegible] two men holding her up has [illegible] paralleled in history at every [illegible] from cave days to our day

A jury of men especially [illegible] find it hard to punish this [illegible] crime as they would [illegible] murder for profit, or any [illegible] other than jealousy, so powerfully described in the Bible

Every married man is [illegible] with a being whom he understands about 10 per cent The other 90 per cent he would not understand even if she told him about [illegible]

That emphasizes the importance of having married since one [illegible] time is not long enough to [illegible] and one woman thoroughly [illegible] Understanding everything you learn is interesting important and checks usually

Police say she had a good chance to kill him too but refrained [illegible] some expressed surprise

There will be neat little paths with grass on each side and [illegible] hape boxwood all very pretty and appropriate among the skyscrapers

Perhaps New England will [illegible] will retaliate by changing the village greens into modest skyscraper aggregations

Hogs Go Up

A shortage in hogs [illegible] Pork on the hoof has come to a new high price and hallelujah pens in the Chicago stockyards are closed Critics say it would take to butcher too many [illegible] sows with their little pigs [illegible] them

A government spokesman [illegible] We only butchered 600 000 sows to keep down the price

Even 600 000 slaughtered sows might be called a good start when you remember that a sow usually produces from ten to twelve little pink pigs at a time

There is slight comfort in the fact that some governments could not tell a 'arrow from a four-cylinder roadster and that farmers contributed to the Canadian pig massacre sow not a rot farrow but sows that had demonstrated their inability to [illegible] row if they tried

Hog prices are said to [illegible] risen 350 per cent within [illegible] which means something to housewives

WOMEN CAN OBTAIN A BEAUTIFUL COMPLEXION

This can be done in a comparatively short time so says C. Lower, Chemist at Lower's Pharmacy. To try to create complexions by powders, rouges and beauty creams is merely a delusion and a snare—sooner or later the skin will show an artificial glare. The women that would spend the same money on creating a good healthy complexion by keeping the body healthy would add years to holding her youthful beauty. GALL, LIVER and BILE ailments destroy complexion rapidly. It has been observed that people who have used Z. Z. Z. GALL tablets take on a wonderful complexion in a remarkable short time. This again proves that torpid bile means much to a woman to regain and hold her complexion. Z. Z. Z. GALL tablets are sold by Lower's Pharmacy.

# 11-Foot Swiss Alpenhorn In Hobby Show Display

Few Marion residents have ever seen a Swiss alpenhorn but after the Marion Hobby and Homecoming week next week every resident and visitor who has been up own will be a little more familiar with his instrument

Yesterday the Marion Hobby club in charge of displays received word from Leopold Felchlin of 225 Silver street that he was willing to place on display an alpenhorn which was sent him from Switzerland

The alpenhorn which is in Mr Felchlin's possession measures 11 feet in length made of natural wood with a cup shaped mouth piece

For centuries such instruments have been used in the Swiss Alps not only as a musical instrument but also for the purposing of signaling

The alpenhorn is one of many unusual and interesting articles which will be placed on display in Marion's uptown store windows next week

Every Marion resident has been invited to participate in making the displays even better than those of last year Those desiring to exhibit some antique family heirloom or hobby collection during the week have been asked to call Clarence Hart at 2103 or to get in touch directly with the merchant in whose window they wish their contribution to be displayed

All displays must be in place Monday afternoon club officers have ruled To facilitate window trimming exhibitors have been asked to have their entries at the stores Saturday morning if possible

# BEAUTY QUEEN AWAITS CROWN

### Prospect Celebrants To Honor Prize Winner at Ceremonies Tonight

Special to The Star

PROSPECT Aug 15—Miss Irma Louise Lodwig will be crowned queen of the centennial festivities in ceremonies scheduled for tonight on the square in the business district.

Announcement of the selection of the queen and her attendants was made last night following the pageant depicting the story of Prospect through the last century.

Miss Carroll Dix won second honors and was chosen Miss Prospect. Miss Betty Griffith was accorded the honor of being Miss Ohio and Misses Catherine Maidlow and Margaret Cline were named the queens attendants. Selections were made in a popularity contest conducted in connection with the centennial festivities. The queen and her party will occupy places of honor on a float in the parade which will feature tonights festivities.

An audience estimated at 4000 witnessed the pageant. Forging of the Village. A large cast of town folks portrayed the history of the founding of the village by Christian Cast and other pioneers and the narrative was related by Mrs Edwin Adams.

The trek of the Cast family from their home in Pennsylvania to Prospect in covered wagons was followed by the establishing of the community, the church school and social activities, the departure of the Indians and the stirring days of the Civil war. An orchestra directed by Paul Gast provided a musical setting for the colorful story.

The picnic schedule this afternoon in the Community park includes games and contests and an old timers baseball game as the final event. Uncle Ezra of radio station WBNS Columbus and his troupe of entertainers were to perform prior to the crowning of the queen this evening.

The centennial parade was to get under way at 6:30 p m and be repeated at 10 p m. The committee in charge includes W H Herr W L Hess D P Hard and Harry Beavers.

Prizes will be awarded the following prettiest float best decorated automobile most unique idea in the parade best idea on advertising and the best clown.

# KENTON CITY CHIEFS TO CONTINUE RENTING

### Mayor Will Ask for PWA Aid Following Rejection of Bond Issue at Polls

Special to The Star

KENTON Aug 15—The city of Kenton today arranged to continue the rental of office space pending outcome of additional negotiations for federal aid for erection of a new municipal building or reconstruction of the present one.

Voters here Tuesday turned thumbs down on a $12 000 bond issue to have been enhanced by approximately $10 000 federal grant for erection of a new one and one half story building. Mayor W C Bopp said he immediately would make a plea to the works progress administration for aid and said if refused the city would continue to rent office space until sufficient money was available to reconstruct the building in compliance with the state building code. The structure was condemned following a fire last spring and will require approximately $8 000 to reconstruct. Mayor Bopp estimated.

# ISSUE AT DELAWARE IS GIVEN BIG VOTE

### Bond Proposal for City Hall Carries 1,470 to 172 at Primary

Special to The Star

DELAWARE Aug 15—With the city hall bond issue approved by voters in the primary election by a vote of 1470 to 172 immediate steps are to be taken to obtain final approval by the PWA and a grant of $11 000 in federal funds. It is hoped that the government will approve the project so that the structure may be started in November. Mayor Sidney A Rowland was to go to Columbus today in an effort to speed up the Delaware application.

The passage of the issue yesterday will give the city the privilege of issuing bonds to the extent of $31 000 to add to the $43 500 the municipality has in the fund derived from insurance on the old city hall which burned in February of 1934. The PWA grant would be $44 000.

Provided the federal grant is obtained the contract for the city hall would be sold to a contractor offering the lowest bid. Final plans will be prepared by Vernon Redding and associates Mansfield architects.
